

# **No Deportations to Iran**

**When all media talk about the lack of  
human rights in Iran, tortures and  
executions in prisons,  
when developed countries apply heavy  
political and economical sanctions  
against Iran, our government continues  
to deport people whose lives  
could be in danger in Iran.**

**We request to stop immediately all deportations to Iran.  
Please join us to support our cause.**
